Forest of  
Blue Village  
Bestiary

The Ancient Lands  
of Duloria

These lands are  
being colonized, starting  
from the far east area.

Floweret, the far  
west of Duloria has  
yet to be explored.

It is known as the  
land of strange beasts  
and its hunters.

concentrate...  
maintain  
that form

now, let's  
try to push  
this ball of  
energy into  
concentrate

just imagine  
clearing the  
mind of all the  
distractions. focus  
it up close as  
possible so it is  
concentrated

721

it is now  
pure enough for  
us to drink.

also,

Long time, you  
have definitely become  
the contraction of the  
dragon instead. Mountain-  
spring, dragon.

Ugh... I can't believe  
I'm already exhausted from  
maintaining the form

It feels like my  
head is going to  
split apart...

I also feel  
an empty void  
in my head...

Do constructs go through the mental  
stress every time they  
activate an object?

Yes

A dragon  
construct's mind  
can continuously  
manipulate its  
material into  
constructs

If one goes too  
far, the mental  
capacity the construct  
will break them.

Activating a dragon  
construct without a  
construct will continuously  
consume your mana-life.

until the person dies  
from some demonic afflict  
a mental explosion.

Sometimes,  
Lily believes  
you do not need  
to use your  
intuition.

PING

you can extract  
the power directly  
from the dragon point.  
to activate the  
intuition.

because you  
and you must be so  
resistant to control  
yourself.

i temporarily  
found the dragon  
point, so you  
should use it

passion me for saying this,

but you are  
an object that  
has lost its  
true color...

there is no  
reason for me to  
find out what  
information was  
contained within...

That's fine  
It's who needs on  
the journey

releases multiple  
humbers...

Not

If we need  
information about an  
artifact what better  
place is there than one  
full of contractors?

That time,...

when I purified  
the parasitoid, he  
dropped this box.

From the box's shape and  
the original jewel that was  
contained within, I'm sure  
this was a dragon artifact

Judging by the size  
of the core, it's at least  
a grade one artifact.

If you come with me,

I'll give this back to you.

**which means I'll be able to find the original body if I move down his back.**

if the case was destroyed during purification,

then the actual, reactive each turned by the punishment's poison

It is easy to come across an abstract that controls malice.

The contract requirements are very difficult to go through, in fact...

While it may be possible to completely destroy the patient,

we've thought ourselves at least a good bit (possibly) not wrong.

If we track the scenario of this abstract, we should be able to get closer to the main body of the patient.

So...

We need to determine  
what kind of power  
was contained within  
this dragon artifact before  
it was destroyed.

That will be  
the first step to getting  
closer to that parasitoid...!!

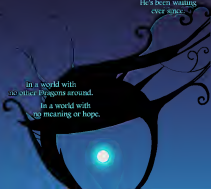

already alone by the  
time he was self-aware.

He's been waiting  
ever since.

In a world with  
no other Dragons around.

In a world with  
no meaning or hope.

Just waiting...

to mature...

I can't even  
begin to imagine  
what it was like...

I knew he was completely  
different from humans...  
from the world he lived in...  
from the way he acted...

The one who couldn't  
understand was me.

My...

Ignorance, selfishness and lack  
of discipline has brought us here.

so all you  
have to do...

Until the parasitoid pays  
with his life and blood  
for what he's done...

I shouldn't have  
any ill will for him...

*SAYLE*

I can't affect Kairak's  
my quest for revenge...

even though she has the dragon stone, it's not worth it.

even with so many diamonds with a high value, master doesn't go out today in the forest.

there is a different world in this world, usually.

all time, we are always changing beautifully, we should be free.

I have a request to make of you, Father.

know

father told us there might be people approaching.

Are they the hunters?

A human with an  
old-shaped glass  
circle around  
his rock...

and another  
with a black collar  
there are two  
monobula,

transferring  
knowledge...
